[Special to The Times-Dispatch.] NORFOLK, VA., February 4.-There was a famous celebration at the Park Avenue Baptist Church last night on the occasion of the congregation's bond-burn ing. The church was filled to overflowing, and many were turned away. Rev. Di A. J. Fristoe has just closed the second year of his pastorate of this church, and it has been one of marked success. When e took charge two years ago a debt of \$6,000 on the church building was unprovided for. Last night it was announce that every cent of it had been paid, and the bond representing the debt was burned in the presence of the congrega-

the bond representing the debt was burned in the presence of the congregation,

Mr. J. L. Watson read a paper on the history of Park Avenue Church. It was most carefully prepared.

Mrs. L. P. Roberts, at the request of the official board of the church, had prepared an "Ode to the Ashes" of the bond. She was presented to the audience by Dr. Fristoe, and while her husband, L. P. Roberts, treasurer of the debt fund of the church, proceeded to burn the bond, Mrs. Roberts read the ode, which was greatly enjoyed by all present.

The ashes of the bond were carefully gathered and will be sent to Africa, to Mrs. Dr. George Green, the recently-appointed foreign missionary of this church, as a souvenir of the occasion. Thus closed a happy event of a happy issue,

Park Avenue ranks as one of the foremost churches of Virginia and has a membership of over 750. During the two years of Dr. Fristoe's pastorate about 275 members have been added to the church, an efficient Men's Loague, a Society of Altruists and a Sunbeam Society organized, a movement started for a public library which secured the offer by Mr. Cargenie of \$20,000 for a building, a foreign missionary appointed, whose salary this church provides, and an claborate system of house-to-house visitation instituted, which is known as "censuses work."

"My little son, when about a year and a half old began to have sores come cut on his face. I had a physician troat him, but the sores grew worse. Then they began to come on his arms, then on other parts of his body, and then one came on his chest, worse than the others. Then I called another physician. Still he grew worse. At the end of about a year and a half of suffering he grew so bad I had to the his hands in cloths at night to keep him from scratching the sores and tearing the flesh. He got to be a mere skeleton, and was hardly able to walk. My annt advised me to try Cuticura Soap and Ointment. So great was her faith in it that she gave me a small piece of Cuticura Soap to try and a little Cuticura Ointment. I took it home without any faith, but to please her I tried it, and it seemed to dry up the sores a little. I sent to the drug store and got a cake of Cuticura Soap and a box of Cuticura Ointment and followed the directions, and at the end of about two months the sores were all well. He has never had any sores of any kind since. He is now strong and healthy, and I can sincerely say that only for your most wonderful remedies my precious child would have died from those terrible sores. I used only one cake of Soap and about three boxes of Ointment. Mrs. Epbert Sheldon, R. F. D., No. 1, Woodville, Conn., April 22, 1905."

Greatly Disappointed.

Dr. Thomas and the others were greatly disappointed. The doctor was inclined to go it alone, but it would probably have meant an all-night trip among snowy clouds, and a descent in the Dismal Swamp or the Carolina wilds, according to the way the wind was blowing, and the doctor could not spare the time. He has an important engagement in New York to-morrow.

The main object of the trip was to test the adaptability of Norfolk gas for ballooning. That, however, was found all right. Captain Homer W. Hedge, chairman, and E. R.
